

SANAKO Lab 100

SANAKO Lab 100
- Affordability and High Performance
in a Language Lab

MODERNIZE LANGUAGE TEACHING

Leading educational institutions are recognizing that teaching and learning foreign languages is as important as ever today, if not more so. The challenge facing many educators is how to make their teaching programs reflect the importance of learning a foreign language in their students' lives.

Make Language Learning Attractive

SANAKO Lab 100 is a unique, teacher-led language teaching system that allows you to bring language teaching back to life. The Lab 100 offers tools that will keep your students motivated and excited while they acquire the language skills they need to develop both personally and professionally.

Keep Teachers involved and Students engaged

Traditional classroom teaching has usually offered interaction between the teacher and only one student at a time, leaving the rest of the class idle and often uninvolved in the learning activity. Lab 100 provides language-learning activities and exercises to keep all students actively engaged.

Develop Students' Language Skills

With its exceptional audio quality, Sanako Lab 100 offers students the opportunity to develop their foreign language skills, as well as their listening proficiency, in an environment that is entertaining and stimulating, and which promotes effective language acquisition.

An Affordable and Versatile Option

With its easy-to-use student digital recorder units and a teacher PC, SANAKO Lab 100 is affordable, scaleable and versatile. It's the ideal solution for schools looking for a language teaching solution that makes use of multiple digital and analog audio sources to create a wide range of learning activities.

Simple and Effective

Lab 100 is a digital language teaching solution which requires only a teacher computer. Included is a Media Storage Unit for the entire class. Students are equipped with digital recorder units that are easy to operate, and which allow them to participate in a number of stimulating learning activities, either alone, or in groups or pairs. Pre-set activities such as phone conversation and listening comprehension make it easy for the teacher to develop lessons.

SANAKO Lab 100 – Practical Tools for developing Language Skills

- Expose students to authentic language examples using diverse audio sources
- Guide and monitor students individually, or in groups or pairs
- Encourage student enrollment in language courses with stimulating programs
- Help students focus on comprehension and fluency of speech
- Enrich lesson content by accessing digital and Internet resources

SANAKO Lab 100 – Affordability meets High Performance

- Simple, compact, robust - low maintenance requirement
- Installed in a small space, no special furniture, student computers or dedicated classroom needed
- Economical alternative to a full PC-lab
- Scaleable system accommodates up to 60 students
- Automatically converts analog material to digital format
- Facilitates student testing – AP[®] exam* (in the United States), grading, quizzes, recorded response

Specialized Applications

Sanako has once again extended the range of capabilities of Lab 100 by introducing SANAKO Lab 100 Cart . With the Cart solution, teachers can effortlessly transform any space into a full-featured mobile Lab. Set up a language lab within 5 minutes. Anywhere, anytime!

Available as an extension module, the Simultaneous Interpretation Training System (STS) was developed especially for the demanding field of professional interpreter training. It provides educators with digital recordings of student interpretations. Reviewing these long-lasting recordings helps tutors and students identify and correct weaknesses in their interpreting techniques to more effectively improve their skills. The collected recordings are also essential for research in the related field of Translation Studies.

Ask other SANAKO Lab 100 Users

"The students are very enthusiastic about the technology. They have fun speaking to each other, recording their conversations, and getting involved in the other activities this lab offers."

Kevin Ryalls, Principal Teacher, Modern Languages Department, Gracemount High School, Scotland, UK

"This lab has so much to offer! Being able to replay their individual work is an incredible tool to help the students improve their pronunciation. And their listening skills have improved dramatically."

Global Language Teaching Staff, Robbinsdale Cooper High School, Minneapolis, Minnesota, USA

SANAKO Educational Solutions

The SANAKO family of educational products combines the best of technology with outstanding sound quality to answer teachers' needs in a variety of teaching environments, ranging from dedicated language teaching labs and software teaching solutions to virtual and multimedia classrooms, and classroom management tools.

Sanako Lab 100 is an affordable, scaleable and high performance teaching solution, and is a key member of the SANAKO educational product group.

SANAKO in Brief

SANAKO Corporation is the new and unified brand that represents 40 years of experience in developing language teaching technology as Tandberg Educational, Auditek, Teleste Educational, and Divace. We are the global technology leader in producing high-end language labs. With a customer base of over 16,000 institutions in more than 100 countries around the world, our quality language teaching solutions have been well known for their technological innovation, flexibility, and scalability. Our corporate solutions address contemporary needs for professional development and meeting solutions that are relevant, cost-effective and results-focused.
